

## Internet Service Provider – Our Services for You

### Professional ISP

### High performance data center, scalable solutions

Cronon AG is a full service internet provider for professional, scalable hosting solutions and network performances. In association with STRATO AG and under the umbrella of Deutsche Telekom AG, we are a secure partner for long-term cooperation running several data centers in Germany each providing different combinations of services.

### Infrastructure Services

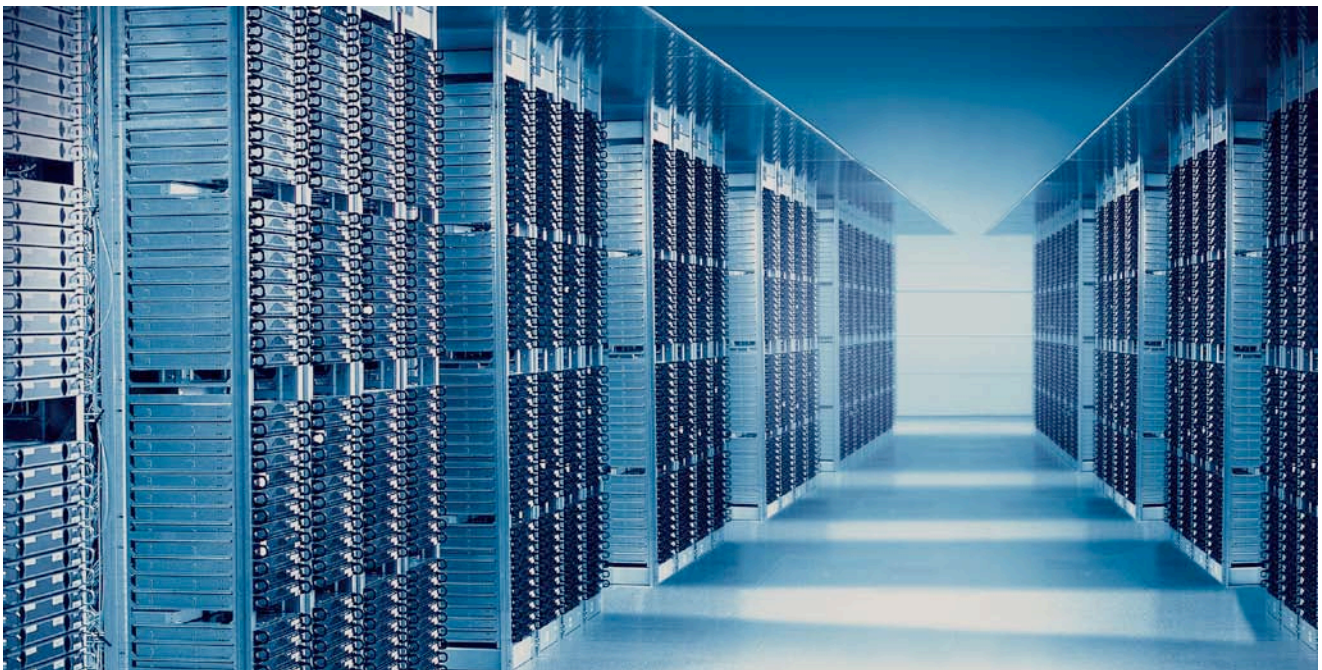

### Hosting and Network Services

The data center at our headquarters in Berlin provides highly efficient technology for demanding business customers. First-rate telecommunications networks and absolutely reliable electricity supply guarantee our infrastructure for the demanding customer. Cronon AG ensures the operation of your server architecture and provides a reliable connection to the internet for your subsidiaries. As a full internet service provider we deliver the infrastructure for modern business needs: firewalls, server, router, data storage and leased lines.

### Managed Services

### Knowhow and relief for your IT

We make sure that our system's software and hardware run reliably and are constantly at your disposal through diligent expert planning, redundant system components and 24/7 monitoring.
